

Atlantic Power Obtains Final Court Order Approving Arrangement

DEDHAM, Mass., April 19, 2021 /PRNewswire/ -- Atlantic Power Corporation (NYSE: AT) (TSX: ATP) ("Atlantic Power" or the "Company") announced today that it has obtained a final court order from the Supreme Court of British Columbia approving its previously announced arrangement with certain affiliates (collectively the "Purchasers") of infrastructure funds managed by I Squared Capital Advisors (US) LLC.

The previously announced transaction with the Purchasers (the "Transaction") remains subject to the satisfaction or waiver of certain conditions, including approval of the holders of the Company's convertible debentures ("Convertible Debentures"), certain remaining regulatory approvals and third-party consents, and other customary closing conditions. As previously disclosed, the parties intend to close the Transaction without the approval of the holders of the Convertible Debentures unless a sufficient number of Convertible Debentures are voted in favor of the Transaction as currently structured. The parties are continuing to work through the steps required to do so and additional details will be provided once these steps are substantially finalized.

The Transaction has received approval from the holders of common shares of the Company and the holders of preferred shares and medium term notes of certain of the Company's subsidiaries. The Transaction also has received certain required regulatory approvals, including an advance ruling certificate from the Canadian Commissioner of Competition under the Competition Act (Canada) on February 5, 2021, the expiration of the required waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 on March 9, 2021, and the approval of the Federal Energy Regulatory Commission on April 2, 2021. The parties currently expect to close the Transaction in the second quarter of 2021.

About Atlantic Power

Atlantic Power is an independent power producer that owns power generation assets in eleven states in the United States and two provinces in Canada. The Company's generation projects sell electricity and steam to investment-grade utilities and other creditworthy large customers predominantly under long-term PPAs that have expiration dates ranging from 2021 to 2043. The Company seeks to minimize its exposure to commodity prices through provisions in the contracts, fuel supply agreements and hedging arrangements. The projects are diversified by geography, fuel type, technology, dispatch profile and offtaker (customer). Approximately 75% of the projects in operation are 100% owned and directly operated and maintained by the Company. The Company has expertise in operating most fuel types, including gas, hydro, and biomass, and it owns a 40% interest in one coal project.

Atlantic Power's shares trade on the New York Stock Exchange under the symbol AT and on the Toronto Stock Exchange under the symbol ATP. For more information, please visit the Company's website at www.atlanticpower.com or contact:
